

Construction Foreman

Are you a proven leader with construction supervision experience? Jay H Fixtures is looking for construction foremen who excel in high-paced, deadline-driven environments, and have excellent communication skills. Requirements include at least 2-3 years' experience supervising and running construction projects supervising work crews and high school diploma or equivalent. Exceptional candidates will have the ability to see the big picture while multi-tasking and managing project details. Must be able to read construction plans and manage subcontractors' schedules and work quality. Excellent verbal and written communication skills, pride in workmanship, and commitment to workplace safety required.
